# Jersey-Lite™ Barriers

The built-in slots for loading and placing the Jersey-Lite™ barrier makes it very easy to maneuver.

Weighing just under 700kgs it can be installed into most areas using just a pallet truck.

The ease in which it can be moved or repositioned makes it ideal should emergency or maintenance access be required.

- Easy to handle
- Lighter than traditional barriers
- Secures cabling within the unit
- Scaffold pole slot top
- Manufactured in the UK

## Jersey-Lite™ Barrier

Type	Length	Width	Height	Weight
Jersey-Lite™	1200mm	605mm	780mm	705kg

The Jersey-Lite™ barrier was also designed with security in-mind and has the ability to house cabling. This helps conceal the wiring for on-site CCTV, illuminated signage and security lighting installations.
