Agricultural Sector

Security

Delivered within a few days of purchase, our security blocks and barriers have proven an ideal solution to detract unwanted visitors and secure and protect livestock and property.

Storage Bays

Our interlocking blocks are used to build bays that are hardwearing and durable and are commonly used within the agricultural sector as storage areas.

Counterweight/Ballast

Our counterweight blocks are used to add weight to tractors to help with traction, balance or stability or as ballast to add support for fencing.
