Renewable Energy Solutions

Solar Panel Ballast Blocks

Our solar panel ballast blocks provide non-invasive, ground-mounted systems for commercial solar farms. Available in three standard sizes. Quick delivery available for both standard and bespoke sizes.

- Robust & versatile mounting solutions
- Designed for panel systems without ground penetration
- Easy to install,
- Can be quickly relocated or removed
- Available in various weights & configurations

CCTV and Signage Ballast Blocks

Our range of CCTV ballast blocks are available in standard sizes, delivered within days or made to order and delivered within weeks of design approval.

- Secure & stable camera mounts
- Ideal for temporary or permanent surveillance setups
- Compatible with pole-mount CCTV systems
- Minimise ground disturbance
- No need for excavation or poured concrete

Foundation Slabs

Our bespoke foundation slabs are made to order, offering customers choice and flexibility. All our foundation slabs are precision-manufactured in UK facilities

- Strong foundations for infrastructure
- Precast concrete slabs for quick site preparation
- Use with cabins, enclosures, transformers, kiosks
- High load-bearing capacity
- Reduces time on site and costly groundworks
