Temporary Vertical Concrete Barriers (TVCBs)

Elite's Temporary Vertical Concrete Barriers (TVCBs) are the perfect safety barrier for a huge variety of applications including many types of temporary works. They also make ideal Vehicle Security Barriers (VSBs).

They are cast from Elite's highly regarded high strength concrete (50N/mm²) which, combined with approved steel reinforcing, means that the barriers meet the requirements of EN 1317 'Compliant Road Restraint Systems for Temporary Safety Barriers'.

The units are connected together at the scarf joint by M24 high tensile bolts.

Elite's TVCBs are always available direct from stock for nationwide next day delivery.

Temporary Vertical Concrete Barriers

Type	Overall length	Modular length	Height	Width	Weight
TCVB	3150mm	3000mm	800mm	450mm	2500kg
