# Minion-Bollard®

The Minion-bollard® is fast becoming the ground keeper's best friend with their ability to help keep areas safe from damage.

## Access

For special events or maintenance work Minion-bollards® can be quickly removed to allow vehicle access when needed.

## Minion-Bollard®

Code	Height	Dia Top	Dia Base	Weight
EPC-BOL-002	500mm	354mm	360mm	103kg

## Flexibility

Minion-bollards® can be both permanent or semi-permanent. Used as free-standing bollards they can be installed without any additional anchoring.

## Maintenance

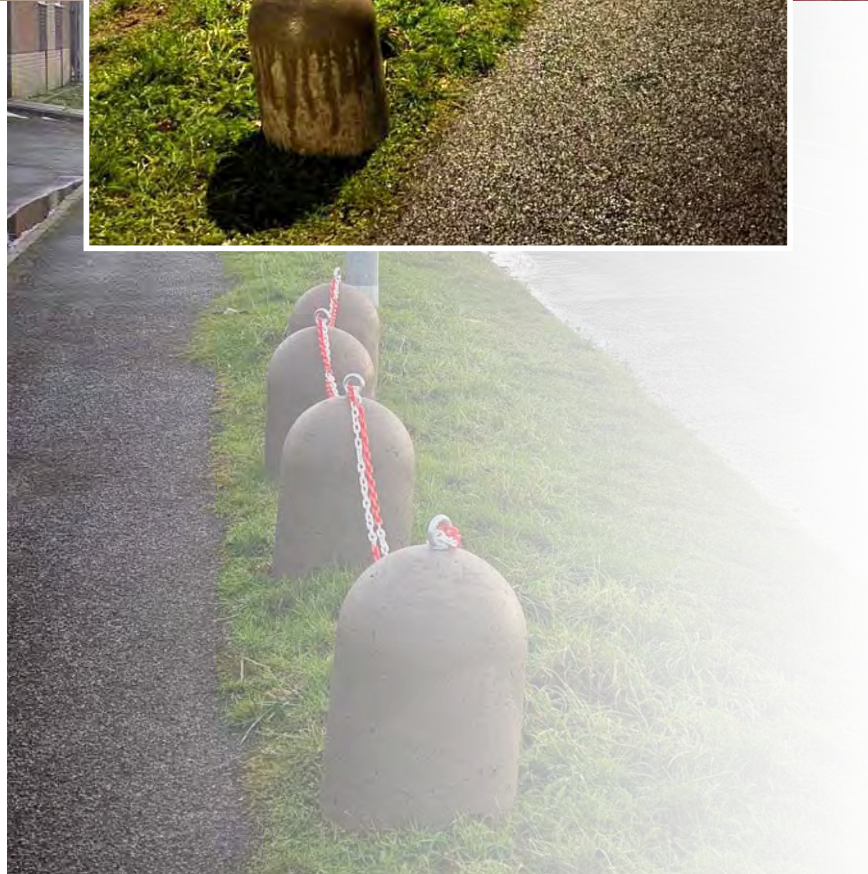

Minion-bollards® are designed for long-term performance with minimal upkeep. Their resistance to the elements and their non-porous surfaces makes them less prone to staining and damage.

## Protection

Minion-bollards® can stop cars and guide pedestrians away from damaging and destroying your grounds or events.

## Cost Effectiveness

The bollards can be used as standalone units or be linked together using chains. They can even hold signage, reducing the need for separate products for different usages.
