

ELITE
PRECAST CONCRETE

Creating secure drainage with **Bespoke & Standard Cover Slabs**

Made in accordance with BS EN 1917:2002 and BS 5911-3:2002, we manufacture 900mm, 1050mm and 1200mm cover slabs with a variety of standard and non-standard access hole sizes.

Recognising the demand for high loading, multiple access and non-standard cover slab, we also manufacture a range of bespoke special cover slabs in 2100mm, 2400mm, 2700mm and 3000mm diameter.

These are available with accesses to suit your project needs and are made to order. This allows for design flexibility, durability and quality.

Bespoke & Standard Cover Slabs

Precast concrete manhole cover slabs can play a vital role in maintaining and securing infrastructure integrity and ensuring the safe access to our underground utilities.

Our one piece standard range of precast concrete cover slabs are available within days of ordering from our Shropshire works and can be delivered with other Elite Precast products to reduce haulage costs and vehicle movements.

Seating rings and adjusting units allow for precise adjustments before finishing with a manhole lid. Speak to our team to discover more.

Standard cover slabs

Access	Depth	Weight
--------	-------	--------

900mm diameter

600 x 600mm	150mm	200kg
-------------	-------	-------

1050mm diameter
