

ELITE
PRECAST CONCRETE

Creating safer spaces with **Drainage Solutions**

Seating Rings/Adjusting Units

- Designed to sit on top of the manhole cover
- Quick and easy to install by semi-skilled labour, reducing costs
- Eliminates laying engineering bricks on-site, reducing reliance on brick availability and cost increases
- Fewer joints, reducing the likelihood of infiltration
- Reduced risk of on-site damage and pilferage

House Inspection Chambers (HICs)

- Faster to build when compared to a traditional brick-built chamber
- Not subject to floatation unlike lighter options
- Reduced costs associated with in-situ construction and reuse of as-dug material
- Easy access to end-users requiring access to drainage system
- Available at short notice
